Emergencies Happen

- ✓ Disasters can strike at anytime
- ✓ Having a plan and the tools in place to make it on your own for a period of time can be crucial
- ✓ Three simple steps can help you prepare for the unexpected

Emergency Preparedness

- ✓ Individuals should take three preparedness steps:
 - Get a Kit
 - Make a Plan
 - Be Informed

Get an Emergency Supply Kit

- ✓ Include basic supplies for your family and pets for three days
- ✓ Prepare at least two kits: one for home; a smaller portable kit to take with you if you have to leave; and if possible, kits for your office or car

Emergency Supply Kit

The larger at-home kit should include the following items:

Food

- Non-perishable - not requiring refrigeration, cooking, or water for preparation
- Examples: canned food, granola bars
- Include a manual can opener, if necessary

Water

- One gallon per person and pet per day for three days
- Store in clean, sealed plastic bottles
- Need for water can vary based on climate and special needs

Emergency Supply Kit

Radio

- Battery-powered with NOAA weather alert function
- Extra batteries

Flashlight

- Extra batteries

First Aid Kit

- With specific items for your family and personal needs

Whistle

- To signal for help if trapped

Wrench or Pliers

- To turn off utilities if necessary

Unique Family Needs

✓ Consider your family's unique needs such as older Americans or individuals with disabilities and other special needs. Some items you may want to add to your kit include:

- Prescription medications
- Extra wheelchair batteries
- Formula or diapers for infants
- Games or toys to entertain children

For a list of additional items,
visit www.Ready.gov

Pet Supplies

- ✓ If you have a pet, include pet supplies in your emergency supply kit:
 - Food
 - Water
 - Medicine/Medical records
 - Collar with ID tag
 - Harness or leash
 - Crate or other pet carrier
 - Familiar items, i.e. toys, treats and bedding
 - Picture of you and your pet for identification purposes

Make a Family Emergency Plan

- ✓ Sit down as a family and plan in advance what you will do in an emergency
- ✓ A well thought out plan will allow you to assess the situation, use common sense, and take care of yourself and your loved ones

Family Emergency Plan

- ✓ You may not be together as a family when an emergency happens
- ✓ Plan in advance how to get in touch with each other and get back together
- ✓ www.ready.gov has a template to help you get started

Ready
Prepare. Plan. Stay Informed.

Family Emergency Plan

Make sure your family has a plan in case of an emergency. Before an emergency happens, sit down together and decide how you will get in contact with each other, where you will go and what you will do in an emergency. Keep a copy of this plan in your emergency supply kit or another safe place where you can access it in the event of a disaster.

Write down where your family spends the most time: work, school and other places you frequent. Schools, daycare providers, workplaces and apartment buildings should all have site-specific emergency plans that you and your family need to know about.

Family Emergency Plan Elements

- ✓ **Out-of-Town Contact** – In an emergency it might be easier to make a phone call out of town; designate a contact out-of-town to take roll and relay information for your family
- ✓ **School and Work Plans** – Learn about the emergency plans at your workplace and at your children's schools
- ✓ **Meeting Places** – Choose two places to meet: one in the neighborhood; one outside of the neighborhood

Special Considerations for Your Family Emergency Plan

- ✓ **Older Americans and Individuals with Disabilities and Other Special Needs** – Develop an emergency plan that considers each person's unique needs, including a personal support network to call on in the event of an emergency
- ✓ **Pets** – Plan with neighbors, friends or relatives to make sure someone is available to care for or evacuate your pets if you are unable to do so

Stay or Go?

- ✓ In some situations authorities may urge you to evacuate
 - Hurricane, flood, fire, etc.
- ✓ In other situations, staying where you are and avoiding danger is best
 - If air is contaminated or there are large amounts of debris in the air
- ✓ Listen to instructions from local emergency management officials

Evacuating

- ✓ Plan where you will go; choose several destinations in different directions
- ✓ Plan driving routes; have maps and alternate routes
- ✓ If you do not have a car, know public transportation options
- ✓ Take your Emergency Supply Kit
- ✓ Lock your door
- ✓ Take your pets; plan out what pet friendly lodging you will go to in advance
